

Solve Hunger Newsletter

02 EDITION 31st December 2020

New App Features

Check out the new notification features in the app by enabling notifications in 'My preferences'. You will get these notifications when food need lists are updated and events are created or updated near you.

Now when you run an event, you can specify Social Media handles on your events.

As we have also added multiple new food banks for which volunteers ran holiday food drives and donated, please navigate to the preferences section in the app and go to "My Food Bank Locations".

Here you can select those new food bank locations to see their shifts, food need lists, and much more!

DISCLAIMER!!

Please update the app from the app store to see all of these new features!

Reminder!!

Please continue to spread the word about the Solve Hunger app and cause. Our strong communities are the driving force of the app and we would love to get more people involved! Look out for events around you in the near future and new volunteering opportunities as more and more food banks join the Solve Hunger Family.

Happy Holidays everyone! Throughout our community, there were 5 holiday food drives run by volunteers in the Solve Hunger Family during these times of giving.

Latest News

Volunteers chose to donate to local food pantries, so the Solve Hunger Family now welcomes Vernon Hills Township Food Pantry, Warren Township Food Pantry, and Palatine Food Pantry.

A special shoutout to the communities of Oakmont, St. Andrews, Timberwoods, and various across the Palatine area for contributing to the holiday food drives!

****Please continue to use the Solve Hunger app for any food drives or food related events ran in the future!**
